

Targeted Investments 2.0 Program

Data Harmonization Guide

Interested providers can work with the ASU TIPQIC team to examine AHCCCS members or their hospitalization events, ED events, or deliveries that are eligible for each measure and attributed to their organization through a member list comparison. Providers will receive a summary report with member-level details for each measure explored. These results will help providers to:

- Explore and explain differences in denominators and performance to identify reporting gaps
- Ensure consistent view of improved trends
- Identify process errors
- Identify additional members each practice is held accountable for

To validate your internal reports, TI providers will need to follow the instructions below. If you have any questions or concerns, please contact the ASU TIPQIC team at TIPQIC@asu.edu.

Step 1: File Structure

1. Please create two CSV (comma delimited) files for each TI 2.0 measure relevant to your organization and a 12-month reporting period that is currently reported on the TIPQIC measure dashboard (e.g., June 1, 2024, to May 31, 2025). One CSV file will list AHCCCS IDs of members in your denominator, and the second will list AHCCCS IDs of members in your numerator.
 - a. For the Peds PCP measures (W30 – Part 1, W30 – Part 2, WCV), Adult PCP preventive measures (CCS, AAP), Adult BH Adherence to Antipsychotic Medications for Individuals with Schizophrenia measure (SAA), and Peds BH Metabolic Monitoring measure (APM) numerator and denominator files:
 - i. Put the IDs in Column A of the spreadsheet. In row 1, put “AHCCCS_ID” as the column title. See Image 1.

	A	B	C	D
1	AHCCCS_ID			
2	A999999999			
3	A888888888			
4	A777777777			
5	A666666666			
6	A555555555			
7				

Image 1. CSV example showing column needed for W30Pt1, W30Pt2, WCV, APM, CCS, AAP, and SAA measures.

- b. For the Peds BH Follow-Up After Hospitalization measure (FUH7/30); the Adult PCP Timeliness of Prenatal Care measure (PPC); the Adult BH Follow-Up After Hospitalization (FUH7) and Follow-Up After ED Visit for Mental Illness (FUM7) measures; and the Justice Follow-Up After ED Visit for Mental Illness measure (FUM7) numerator and denominator files:
 - i. Put the IDs in Column A of the spreadsheet. In row 1, put “AHCCCS_ID” as the column title. See Image 1.
 - ii. For the FUH7/30 and FUM7 measures, list each member’s hospitalization or ED admission and discharge dates in columns B and C. For the PPC measure, list the member’s delivery date in column B and set column C equal to column B. See Image 2.
 - iii. Title column B as “Admit_Date” and column C as “Discharge_Date.” Format the dates as MM/DD/YYYY (e.g. 10/31/2025).
 - iv. If a member has multiple hospitalizations, ED visits, or deliveries, create one row for each event.

	A	B	C
1	AHCCCS_ID	Admit_Date	Discharge_Date
2	A111111111	4/1/2025	4/3/2025
3	A222222222	1/22/2025	1/24/2025
4	A333333333	3/10/2025	3/14/2025
5	A444444444	2/28/2025	3/5/2025
6	A111111111	1/6/2025	1/9/2025

Image 2. CSV example showing columns needed for the FUH (7/30 day), FUM7, and PPC measures.

Step 2: File Naming Convention

Files names should follow the structure:

[Provider TIN]_[Area of Concentration]_[Measure Abbreviation]_[Reporting Period End Date]_[Numerator or Denominator].csv

Field	Description
Provider TIN	9 digits, no spaces or special characters
Area of Concentration	All caps, no spaces or special characters Possible values: ADULTPCP, ADULTBH, PEDSPCP, PEDSBH, JUSTICE
Measure Abbreviation	Use the predefined measure abbreviation. - Well-Child Visit, 15 months: W30Pt1 - Well-Child Visit, 30 months: W30Pt2 - Child and Adolescent Well-Care Visits: WCV - Metabolic Monitoring for Children and Adolescents on Antipsychotics (APM)

	• Follow-Up After Hospitalization for Mental Illness - 7 day: FUH7 • Follow-Up After Hospitalization for Mental Illness - 30 day: FUH30 • Timeliness of Prenatal Care: PPC • Cervical Cancer Screening: CCS • Adults' Access to Preventative/Ambulatory Health Services: AAP • Adherence to Antipsychotic Medications for Individuals with Schizophrenia: SAA • Follow-Up After Emergency Department Visit for Mental Illness - 7 day: FUM7 • Follow-Up After Hospitalization for Mental Illness - 7 day: FUH7 <i>Due to 45 CFR Part 2 regulations, we cannot accept protected health information <u>at this time</u> for the Engagement of Alcohol and Other Drug Dependence Treatment (IET-E) measure or the Follow-Up After Emergency Department Visit for Alcohol and Other Drug Abuse or Dependence – 7 Day (FUA7) measure.</i>
Report Period End Date	Last month of the 12-month reporting period in question Format as YYYYMM, e.g. 202505 for the report period ending May 2025
Numerator or Denominator	“numerator” or “denominator” depending on which members are listed

Example filename: 123456789_PEDSPCP_W30Pt1_202505_numerator.csv
